

THE DREAM FACTORY: CARPENTRY

ONSITE
WORKPLACE LEARNING PROGRAM

Certificate II Carpentry

Do you have a building desire
to work with wood?

When you complete this Certificate II in Building and Construction pre-apprenticeship you'll be what employers are looking for as an apprentice carpenter and joiner.

Many employers now prefer apprenticeship applicants to have completed a pre-apprenticeship and this course will give you the skills, knowledge and behaviours to prepare you and make you more competitive when applying for apprenticeship positions. It will give you a better chance of gaining an apprenticeship and a flying start in learning a trade.

You will learn to use manual and power tools; construct wall frames; install flooring; interpret plans; measure and calculate the right amount of materials for the job; work with scaffolding safely at heights; and workplace health and safety.

Talk to your school coordinator about how you can apply for this ONSITE course
