WORKPLACE LEARNING PROGRAM

METALS ENGINEERING

MEM20105 Certificate II Engineering [Fabrication Preapprenticeship]

Graduates can continue their studies in a metal fabrication heavy or light apprenticeship.

Metal fabricators and welders work in a diverse trade, applying a broad range of fabrication and welding skills to industries including: mechanical and civil engineering, mining resources sector, heavy haulage and road transport, agriculture machinery, construction, defence etc.

Pre – apprentices are exposed to the latest technological developments in the fabrication and welding trade, including computer controlled metal plate cutting equipment.

Talk to your school coordinator to find out how you can access this ONSITE course
